Oh gosh – I thought I had. This should reflect all the changes but feel free to give it a onceover to be sure if you have the time.

Francesca

Hi all – Here are the slides for the stakeholder and partner meeting. I have also attached the list of the questions that have come in so far and the word document consolidating your comments and my response. Luke has done his edits as well. I would like to see which of the answers to these questions we could incorporate into the presentation. I think these questions tell us a great deal about the concerns of this external audience.

**Maggie** – Would you be able to arrange for a time to meet with OPA to discuss the Q&A? I expect this has not come across their radar yet but I would predict given the amount of their energy that went into prep for the Lerner interview – they are going to want to engage on this – and I welcome their perspective. I would like to do this sooner rather than later so there is time to adjust the presentation to accommodate their knowledge and experience.

**Mary and Kacee** – In my mind it makes sense to give Jennifer a heads up that she might look at these for show-stoppers and then let us work with OPA and then get back to her with their feedback incorporated for her final suggestions or ideas.

Thanks

Francesca
